

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B.	- Bottom or Base of Bank.	C. Tk. F.	Centre of Track of Fence, Furrow, &c.
C. C. D.	Centre of Covered Ditch or Drain.	F. S. F.	Face of Sunk Fence.
C. H.	- Centre of Hedge, Harbour, &c.	F. S. W.	Face of Sea Wall, or Sunk Wall.
C. O. C.	- Centre of Old Channel, Canal, Cut, &c.	F. W.	- Face of Wall.
O. S. L. W.	Centre of Stream at Low Water.	Tk. D.	- Track of Ditch or Drain.
		Tk. S.	- Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. - Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The following are the Scales, &c., Characters of Writing and Boundary, Symbols, Abbreviations, &c., used on the Ordnance Plans of $\frac{1}{2500}$, $\frac{1}{5000}$, and 6 Inches to 1 Mile, past and present:—

SCALES, &c.

Examples shewing how each kind of Plan is numbered.			Description of Plan.	Area of each Sheet.		Dimensions represented.		Scale.	Remarks.
County.	Parish.	Town.		Acres.	Sq. Miles.	Length.	Breadth.		
IX.			County Plans						
IX. v.v.			Full Sheet	15860	24	6 miles	4 miles	6 inches to 1 mile.	* N.W., N.E., S.W., S.E. according to the position of Quarter Sheet.
*			Quarter Sheet	3940	6	3 miles	2 miles	Do. do.	
IX.	15		Parish Plans	960	1½	1½ miles	1 mile	1½ of actual length on the ground, or 25'344 inches to 1 mile, or 3'187 chains to 1 inch.	The square of 1'0018 inch = an acre, or approximately 1 square inch on the plan represents 1 acre.
i.e. — By a double reference number.									
IX.	15	23	Town Plans	38'4	'06	24 chains	16 chains	1½ of actual length on the ground, or 10'56 feet to 1 mile, or 41'66 feet to 1 inch.	Some towns have been done on 10 feet, and some 5 feet, to 1 mile.
i.e. — By a treble reference number.

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

Each enclosure has a reference number to the area which is given in this Book; in case of towns and large villages encircled by a red band, one number and area only given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish. The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

- 1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.
- 2.) The fences, &c., bounding either side of a railway are included wholly within its area.

ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(3.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

AREAS.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases:—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ABBREVIATIONS.

Abbreviations in use on the Ordnance Plans to show the nature of the Boundaries, also for various objects, and Descriptive Names.

These Abbreviations are used either singly or in combination, thus—

B. B. - Bottom or Base of Bank.	C. Tk. F. Centre of Track of Fence, Furrow, &c.
C. C. D. Centre of Covered Ditch or Drain.	F. S. F. Face of Sunk Fence.
C. H. - Centre of Hedge, Harbour, &c.	F. S. W. Face of Sea Wall, or Sunk Wall.
C. O. C. - Centre of Old Channel, Canal, Cut, &c.	F. W. - Face of Wall.
C. S. L. W. Centre of Stream at Low Water.	Tk. D. - Track of Ditch or Drain.
	Tk. S. - Track of Stream.

Where an Initial represents several kinds of features the correct feature intended can easily be identified by anyone visiting the ground; thus on the ground C. R. along a road cannot be taken to mean "Centre of River."

A R E A S.

Each enclosure has a reference number to the area which is given in this Book ; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.
